

Q1. Write a Program to print an introduction?

Ans. `print "My Name is Anurag Verma,Born and brought
up in kanpur By profession I am an Engineer"`

Q1. Write a Program to perform the following operations?

Ans. Addition:

```
num1 = 15  
num2 = 12  
Sum = num1+num2  
print("sum")
```

Subtraction:

```
num1 = 15  
num2 = 12  
Sub = num1-num2  
print("sub")
```

Multiplication:

```
num1 = 15  
num2 = 12  
Mul = num1*num2  
print("Mul")
```

Division:

```
num1 = 15  
num2 = 12  
Divi = num1/num2
```

```
print("Divi")
```

Modulus:

```
num1 = 15
```

```
num2 = 12
```

```
mod = num1%num2
```

```
print("mod")
```

Modulus:

```
#import math
```

```
# math.pow (Number,Exponent)
```

```
Import math
```

```
print(math.pow(4,3))
```

Output: $4*4*4 = 64$
